Subsystem *n*

Continuous Delivery

- Use a source code repo for all production artifacts
- Use trunk-based development methods
- Shift left on security
- Implement test automation
- Implement continuous integration
- Support test data management
- Implement continuous delivery
- Automate the deployment process

Architecture

- Use loosely coupled architecture
- Architect for empowered teams

Cultural

- Adopt a Likert scale survey to measure cultural change progress
- Encourage and support continuous learning initiatives
- Support and facilitate collaboration among and between teams
- Provide resources and tools that make work meaningful
- Support or embody transformational leadership

Product & Process

- Gather and implement customer feedback
- Make the flow of work visible through the value stream
- Work in small batches
- Foster and enable team experimentation

Deployment

- Have a lightweight change approval process

- Mission Program Responsibility & Managed Components
- Hosting Environment Provider Responsibility & Managed Components

- Mission Program Responsibility & Managed Components
- Hosting Environment Provider Responsibility & Managed Components

SECURE SOFTWARE DETECTS AND RESISTS
CYBERATTACKS, OFFERING THE
WARFIGHTER A QUANTIFIED DEGREE OF
CYBER SURVIVABILITY

STABLE SOFTWARE PERFORMS WELL
WITHOUT BREAKING OR CRASHING, &
DYNAMICALLY SCALES TO MATCH
DEMAND

QUALITY SOFTWARE MAXIMIZES USER
REQUESTED FEATURE SETS AND
MINIMIZES FUNCTIONAL DEFECTS

DevSecOps Document Set Update 2	2.0	Strategy Guide	→ 2.1
	2.0	Fundamentals	2.1
	2.0	Tools & Activities Guidebook	→ 2.1
	2.0	Reference Design: CNCF K8s	2.1
	--	Reference Design: AWS CSP w/IaC	→ 1.0
	2.0	Playbook - DevSecOps	→ 2.1

Industry Contribution

"DoD should modify its processes to mimic industry's best practices rather than try to contract for and maintain customized software."
(Defense Innovation Board, *Software is Never Done*, May 2019)

- Mission Program Responsibility & Managed Components
- Hosting Environment Provider Responsibility & IaC Provisioned Managed Components
